## 1 Tool Inventory, May 2006[toolinv]

These were physically on hand in HSVTC storage on 6MAY06 when I did a tool inventory. I did a second inventory on 11MAY06 and found some additional tools. The additional tools have been included in the main list. There were rumors of more on a truck, but those were not seen and verified. Many of the additional tools came from Shane's truck, others resulted from a more detailed search of storage.

Unless otherwise mentioned, all have guards, are in good condition, have wood handles and are in HSVTC storage.
